

THE NIHFW NEWSLETTER

The National Institute of Health and Family Welfare
Vol. XX, No. 2, Quarterly, April-June, 2018

From the Desk of The Director

Greetings to our valued readers. The months from April to June this year, marked two important events at the global level; The World No Tobacco Day and the World Environment Day. 31st May, the World No Tobacco Day is celebrated to highlight the

health and risk factors associated with tobacco use and to advocate implementation of policies to reduce tobacco consumption. India was the global host for the 2018 World Environment Day which was celebrated on June 5, 2018 with the theme, "Beat Plastic Pollution". The world is coming together to combat the single-use plastic pollution. Recognizing the importance of these two events in the health sector, the student and staff enthusiastically participated in these two important events. The Institute initiated significant administrative steps in combating plastic pollution such as encouraging steel and pottery utensils for daily use in the canteen and hostel. To encourage paperless office, use of e-mails was emphasized in routine official communication.

Valuing the contribution of volunteers and utilization of social media for recognizing their work is a core strategy of the initiative - Pradhan Mantri Matritva Surakshit Abhiyan. A virtual 'Hall of Fame' has been created for recognition of doctors who have consistently performed and achieved the desired benchmarks. An independent Awards Committee was constituted under the Chairmanship of Director, NIHFW for the PMSMA- 'I pledge for 9' Achievers Awards. The Committee recommended names to the Ministry of Health and Family Welfare, Government of India.

We are delighted to share the progress of various activities during the last quarter April-June 2018, along with the list of forthcoming training courses. Your suggestions towards improvement are always welcome.

Prof. Jayanta K. Das
Director

PMSMA 'I Pledge for 9' Achievers Awards celebrate individual and team achievements under the Pradhan Mantri Matritva Surakshit Abhiyan (PMSMA) across India. PMSMA implementation relies on commitment of government functionaries and voluntary contribution of time by health care providers.

For this purpose, the Ministry of Health and Family Welfare constituted an independent PMSMA Awards Committee for National level PMSMA Awards under the Chairmanship of Prof. Jayanta K. Das, Director, NIHFW. The recommendations of the Awards Committee were submitted to MoHFW. The Awards were distributed by Shri J. P. Nadda, Hon'ble Union Minister for Health and Family Welfare in New Delhi on June 29, 2018.

World Environment Day

The NIHFW celebrated "World Environment Day" on June 5, 2018. The theme for World Environment Day, 2018 was 'Beat Plastic Pollution' which allowed us to come together to combat this global environmental challenge of our age. Event started with the Deputy Director's speech, in which he emphasized the over exploitation of plastic use which has led to a prolonged and tortuous global environment disaster.

The MD (CHA) 1st year students organized a panel discussion on the topic. They made the audience aware of the harmful chemicals and toxins released by plastic pollution and ill health effects. The discussion emphasized the message of "reject single use plastic, refuse what you cannot reuse".

Different messages were displayed and the audience was encouraged to reduce plastic pollution. An oath was taken at the end of the event by the staff pledging that, “together we can ensure that our future generation lives in a clean and green planet, in harmony with nature”. The celebrations concluded by planting trees in the campus by the Director and other faculty members.

World No Tobacco Day

The NIHFV celebrated ‘World No Tobacco Day’ (WNTD) on May 31, 2018. The event was chaired by Prof. Jayanta K. Das, Director, NIHFV. Dean, Deputy Director (Admn.) and all the other staff members participated in the event. The burden of tobacco use, socio-economic aspects, ill effects on humans and use of crop rotation as an alternative to tobacco cultivation were elaborated. Efforts made by the Government to deter the use of tobacco were also highlighted. On the occasion, the 2nd year MD (CHA) students and PGDPHM International students enacted a role play,

emphasizing the ill effects of the chewing tobacco as a leading cause for oral cancer and throat cancers. The event proceeded with a panel discussion on the topic, which extensively dealt and elaborated the harmful effects caused by tobacco consumption, both in chewable and in smoking form. The difficulties in banning the cultivation of tobacco crop and new treatment and rehabilitative alternatives were discussed. The event sensitized the audience towards quitting smoking, adopting a healthy lifestyle like exercising daily for 30 minutes and encouraged them to prohibit using the same within the Institute campus. In the end, the panelists displayed various slogans to the audience. The event concluded with the address of the Director who emphasized the policy decisions taken by the Institute towards a tobacco free NIHFV.
